**The** **B** **E** **A** **T**

A thick black line representing an ECG trace. It starts with a horizontal line, then drops sharply, rises to a peak, drops again, rises to a smaller peak, and finally levels off. The letters 'B', 'E', 'A', and 'T' are placed above the peaks of the ECG line.

By Megan Armstrong, Cohort 47

Communications Director

Hello Faculty,

Here we are at the end of January! A lot has happened this month. We had some great community service events (see page [3](#)). A big thank you to our faculty who have volunteered for NUSNA community service opportunities, without your help we would not be able to attend as many events as we do. The biggest event this month was our January elections! Eight positions were up for election, including my own (see page [4](#) for the election results). All good things must come to an end, but I think I speak for all of the now outgoing directors when I say that we have some fantastic new Board members. Now begins the transition period where we will teach our successors how to carry out their new positions.

Coming up in a few short months will be NSNA (National Student Nurses' Association) Annual conference in Nashville, Tennessee! NUSNA will be choosing our delegates who will go to Nashville to represent NUSN very soon. In the mean time, NUSNA will be working on our awards submissions for the Conference (in the past we have won awards for our newsletter as well as community service). Wish us luck as we get our submissions ready!

# January Election Results

A total of 8 positions were up for election in January! Cohort 47 had a large presence on the Board of Directors, and in addition to that, our BTN Director stepped down from his position opening another position. In the following pages you'll find the results for 7 of the 8 positions. Our missing result, Alumni Relations Director, still has voting going on. The results for that position will be listed in the next faculty newsletter.
